

Installation & Reference Guide for Installers

Procedure

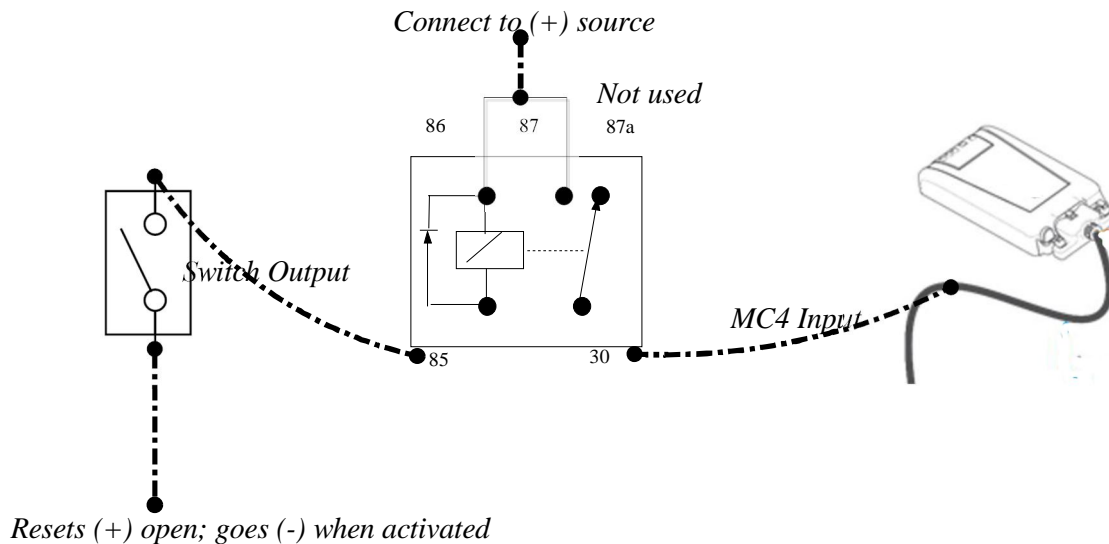

1. Perform the initial installation.
2. Move to this guide for the sensor/input installation

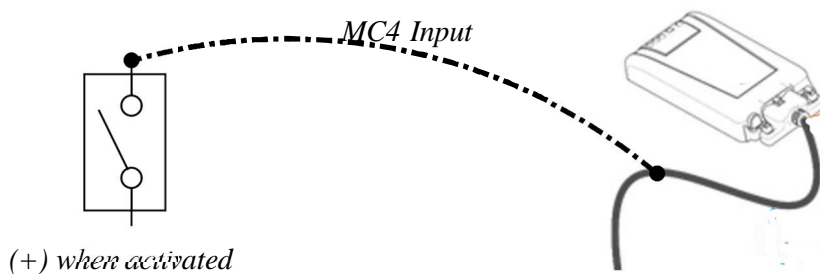

Installation Instructions

- If you did not insert the bridge harness during installation, do it now.
- Identify the output of the device or sensor to be monitored.
- Using a DMM, check to see if the output is (+) or (-) when activated.
- Proceed as follows in using Guide (1) or Guide (2).
- The MC4 input needs to see (+) voltage. The single input will be marked.

Guide (1): Using a relay

Guide (2): Direct Connection
